ŠKODA FABIA ACCESSORIES
The ŠKODA Fabia and Fabia Combi cars are driven by people with various professions and hobbies – young couples, families with children, active sports-oriented people as well as those who value comfort above all. Naturally, each of them has different needs and specific requirements for their car.

This is where the ŠKODA Genuine Accessories offer a solution. In our range, which is essentially an extended range of the extra equipment, you will find various products including spoilers, alloy wheels, radios, navigation systems, roof racks and so on. You can also choose from a wide range of child safety seats for children of all age groups. All our products have been approved by ŠKODA Auto so with them you choose maximum safety and reliability.
SPORT & DESIGN

With accessories from the sport & design category you not only accentuate the dynamic character of the exterior and interior but directly give your car a sporty style. For example, we offer a styling kit, which lends your car an expression of power and ferocity. The range further includes decorative foils and door sill covers, leather accessories and, last but not least, a wide choice of alloy wheels ranging from 14” to 17”.

Alloy wheels
Quality, safety and design

Alloy wheels from the line of ŠKODA Genuine Accessories vividly illustrate the joining of quality, function and aesthetics. Wheels from ŠKODA Genuine Accessories range pass through all tests such as serial production wheels and thus ensure their high quality and safety in traffic. Today, the testing system is so developed that practically every part of the wheel is tested for material strain.

All wheels have to comply with strict requirements that are imposed on this so-called “vital part”. Certified suppliers guarantee quality and compliance with defined parameters of produced wheels. Due to the wide range of designs and colour versions of cast wheels, you can individualize your Fabia exactly according to your imagination.

For maximizing the quality of products from the ŠKODA Genuine Accessories range, computer technology is used, such as seen on this alloy wheel simulation picture.

Sometimes it only takes a little and everything is different. An ordinary moment turns into an extraordinary moment. A fleeting touch into an unforgettable experience. An accidental encounter into love for a lifetime... Sometimes it takes just a little and what was ordinary is suddenly outstanding. To step out of the crowd and stop merging with your surroundings can be so simple. You just need to take the first step: give your car an individual look.

To all those who crave for a unique style for their car, we offer Fabia individualisation possibility with either the Graphit or Tornado package. Both of these ŠKODA Genuine Accessories Packages include an attractive colour styling kit (front spoiler and rear bumper spoiler, roof spoiler and stainless steel exhaust pipe end pieces), which gives your car an unmistakably elegant and sporty character, and in an advanced level you can have even more... While the Tornado package introduces the styling kit in red colour, the Graphit package offers a gray variant. Both packages are exclusively offered for the Fabia hatchback, along with 16” Comet wheels or 17” Trinity or Gigaro wheels.

Be yourself and the world will adjust.
The packshots displayed above are from level 1 equipment.
Level 1 contains:
- front and rear bumper spoiler in contrasting colours, roof spoiler in the same colour as the car paint and the exhaust pipe end piece from stainless steel.

Level 2* contains:
- level 1 + side strips, external mirrors and decorative foils in contrasting colours and black front grille frame.

* Level 1 available during the 3rd quarter 2013.

The packshots displayed above are from level 1 equipment.

The packages are not intended for the following models: GreenLine, Monte Carlo, Scout or RS, and it is not possible to combine them with tow bars and rear mud flaps.

**The City Crash is a method of testing genuine accessories products that can be fitted to the vehicle’s body, such as roof railings, transverse roof racks and other transport systems including boxes, bicycle, ski and surfboard carriers etc.**

**Method:** A section of the body is fitted to special skids, which are travelling at a speed of 30 km/h. At the moment of the simulated collision, the force reaches between 9 and 12 G’s and lasts for 80 ms.

**Evaluation:** In order to successfully pass the City Crash test, none of the transported objects may get detached from the body, which demonstrates that the safety of both pedestrians and other vehicles in real traffic is not endangered by the product.
Some accessories from the safety category are intended for the protection of the crew while others have been designed for the care or security of the vehicle itself. Child seats from ŠKODA Genuine Accessories will ensure a safe and comfortable journey for the youngest passengers weighing up to 36 kg. Snow chains are an essential piece of equipment for mountain enthusiasts and an alarm or mechanical drive locking system will guard your vehicle while you explore, for example, nature’s beauty on a bike.

**Child seats - keeping our little ones comfy and safe**

Do you want your children to sit in the safest spot possible? Child seats from ŠKODA Genuine Accessories with ISOFIX reliable anchoring, Top Tether attachment, the choice of travelling while facing forward or backward, comfort and adjustment to respect the child’s growth provide the best solutions for transporting the smallest passengers.

**Practical and variable**

Smart seat design allows the child to sit not only at the back, but also next to the driver, where you can see him or her better. The seats are distinguished by variability and many setting positions, so that they can adjust to your child’s changing size. They also can be used outside of the car as a carrier for transporting the child or as a practical seat.

**Perfectly tested**

The certainty of maximum possible safety and quality can only be achieved through rigorous testing. Therefore every seat in the ŠKODA Genuine Accessories line conforms with the ECE 44.04 European safety regulation and has passed a number of additional tests. Excellent results in the Euro NCAP crash test along with successful tests for non-flammability, absence of harmful substances, and lining quality confirm the seats’ high quality and safety.
